INASS

International Journal of
Intelligent Engineering & Systems

http://www.inass.org/

Please Insert Main Title (Bold type, 14-point font size)

Fisrt Name and Family Name[1]* **Fisrt Name and Family Name[2]**

[1]*Author's Affiliation 1, Country*
[2]*Author's Affiliation 2, Country*
* Corresponding author's Email: author@fit.ac.jp

Abstract: The abstract must appear at the beginning of the main text, immediately below the author information and separated from it by a horizontal line. Use the heading "Abstract" in 10-point Times New Roman, bold, with an initial capital letter. The abstract text should be written in 10-point Times New Roman, single-spaced, and must not exceed 150 words. Please do not use special characters, symbols, or mathematical expressions in the title or abstract.

Keywords: Use the heading "Keywords" in 10-point Times New Roman, bold, with an initial capital letter. The keywords should be written in 10-point Times New Roman, single-spaced, with only the first letter of each keyword capitalized, and separated by commas (e.g., Power converters, Switched-capacitor circuits, Integrated circuits). Place a horizontal line immediately below the keywords. Leave one blank line after the horizontal line, and then begin the Introduction section.

1. Introduction

All manuscripts must be in English. These guidelines include complete descriptions of the fonts, spacing, and related information for producing your proceedings manuscripts.

2. Formatting your paper

All printed content, including text, figures, and charts, must be confined within a print area measuring 17.2 cm in width and 24.62 cm in height. For A4-size paper, set the top and bottom margins to 2.54 cm and the left and right margins to 1.9 cm. These settings correspond approximately to the "Moderate" margin preset in Microsoft Word. The header and footer distances should be set to 1.5 cm and 1.75 cm, respectively. No text, figures, charts, or other content may extend beyond the designated print area.

All text must be formatted in two columns. Each column should have a width equivalent to 22.2 times the character size, with a space equivalent to 2.02 times the character size between the two columns. The text must be fully justified.

3. Main title

The main title on the first page should be centered and placed below the figure at the top of the page. It must be set in 14-point Times New Roman, bold. Capitalize the first letter of all nouns, pronouns, verbs, adjectives, and adverbs. Articles, coordinating conjunctions, and prepositions should not be capitalized unless they are the first word of the title. Leave 10.5 points of space above the title and 14 points below it.

4. Author name(s) and affiliation(s)

Author names should be centered below the title and set in 11-point Times New Roman, bold. Author affiliations must be centered below the author names and set in 11-point Times New Roman, regular. Do not use acronyms or abbreviations in author affiliations; spell out all institution, department, and organization names in full. Academic, professional, or administrative titles and positions should not be included. The same affiliation should not be repeated; authors sharing the same affiliation should be grouped under a single affiliation entry.

This article is licensed under a Creative Commons Attribution-ShareAlike 4.0 International License.
License details: https://creativecommons.org/licenses/by-sa/4.0/

For multiple authors, a two- or three-column format may be used, with each author's affiliation italicized and centered below the corresponding name. Where possible, include full postal addresses and postal codes. The corresponding author's email address should be centered and set in 10.5-point Times New Roman, as illustrated.

5. Type-style and fonts

Wherever "Times" is specified, either Times Roman or Times New Roman may be used. If neither font is available in your word-processing software, use a font that closely resembles Times in appearance. The use of bitmap fonts should be avoided whenever possible. TrueType or Type 1 fonts are recommended.

6. Main text

The main text should be set in 11-point Times New Roman and single-spaced. Double spacing should not be used. In Microsoft Word, use the "Exactly" line-spacing option to maintain consistent and compact line spacing throughout the manuscript. Each paragraph must begin with an indentation equivalent to 1.5 times the character size. The text must be fully justified, with both the left and right margins aligned evenly. Do not insert additional blank lines between paragraphs.

7. First-order headings

For example, the heading "1. Introduction" should be formatted in 12-point Times New Roman, boldface, with initial capitalization, and aligned flush left. A period (".") should follow the heading number, not a colon.

7.1 Second-order headings

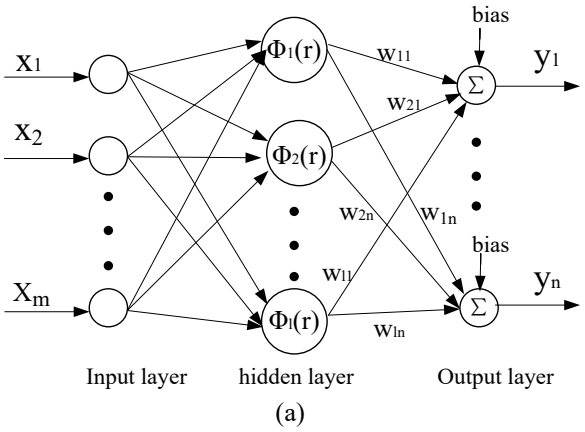

As demonstrated in this heading, they should be formatted in 11-point Times New Roman, boldface, with initial capitalization, and aligned flush left.

7.1.1. Third-order headings

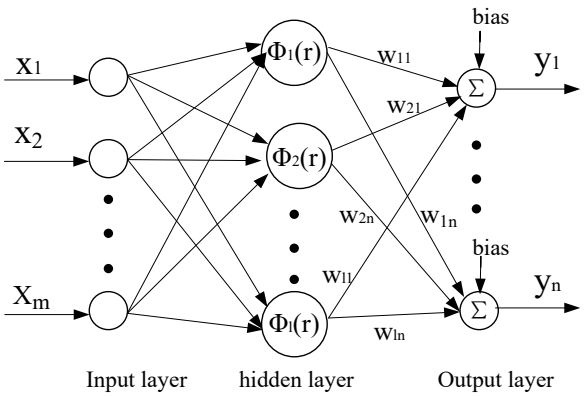

Third-order headings, such as the one in this paragraph, are generally discouraged. However, if their use is necessary, they should be formatted in 10-point Times New Roman, boldface, with initial capitalization, and aligned flush left.

8. Footnotes

Footnotes should be used sparingly, if at all, and must be placed at the bottom of the column on the same page where they are referenced. They should be formatted in 9-point Times New Roman, single-spaced. To enhance readability, it is recommended to avoid footnotes entirely and instead incorporate any necessary supplementary remarks directly into the main text, preferably within parentheses, as demonstrated in this sentence.

(a)

(b)

Figure. 1 System model: (a) top figure and (b) bottom figure

Table 1. Definition of terms

Immune system	Vehicle detection system
Antigen	Pre-processed vehicle objects

* In figures and tables, the font size is 10pt.

9. Figures and tables

Figures (referred to as Fig. 1, Fig. 2, etc.) and tables (referred to as Table 1, Table 2, etc.) should be integrated into the text, with sufficient spacing to ensure that their captions and titles are clearly distinguishable from the main body text.

Callouts, figure captions, and table titles should be set in 10-point Times New Roman, regular. Only the first word of each figure caption and table title should be capitalized. Figures and tables must be numbered independently and sequentially.

This article is licensed under a Creative Commons Attribution-ShareAlike 4.0 International License.
License details: https://creativecommons.org/licenses/by-sa/4.0/

Figure captions should be centered below the corresponding figures, whereas table titles should be centered above the corresponding tables. For example: “Fig. 1. Structure of RBFNN.” and “Table 1. Definition of terms.”

Figures and tables should normally fit within a single column. If a figure or table is too large to fit clearly within one column, a full-width, single-column format spanning both columns may be used for that figure or table only.

Do not place borders around the outer edges of figures.

10. Equations

Equations (referred to as Eq. (1), Eq. (2), etc.) should be indented 5 mm from the left margin. Leave one blank line above and below each equation to clearly separate it from the surrounding text. Equations must be numbered sequentially, with the equation numbers enclosed in parentheses and aligned with the right margin, as in (1), (2), and so on. Do not use images or figures in place of properly formatted equations.

Conflicts of Interest

A Conflict of Interest statement must be included in every manuscript. Authors must disclose any conflicts of interest or explicitly state, “The authors declare no conflict of interest.” Any personal, financial, professional, or other interests that could reasonably be perceived as influencing the presentation or interpretation of the research findings must be clearly disclosed.

Author Contributions

An Author Contributions statement must be included in every manuscript with multiple authors. A brief paragraph specifying the individual contributions of each author should be provided. The following format may be used: “Conceptualization, XXX and YYY; methodology, XXX; software, XXX; validation, XXX, YYY, and ZZZ; formal analysis, XXX; investigation, XXX; resources, XXX; data curation, XXX; writing—original draft preparation, XXX; writing—review and editing, XXX; visualization, XXX; supervision, XXX; project administration, XXX; funding acquisition, YYY,” as applicable.

Authorship should be limited to individuals who have made substantial contributions to the work presented in the manuscript.

Acknowledgments

The Acknowledgments section should identify any organizations, institutions, or funding agencies that provided support for the work. For example: “This work was supported by the National Natural Science Foundation under Grant No. 405”.

References

List and number all bibliographical references at the end of the paper using 11-point Times New Roman. References must be formatted according to the IJIES reference style, which differs from the IEEE reference style. Please follow the examples provided below carefully.

When citing references in the text, use the corresponding reference numbers in square brackets, such as [1]. When citing two or more references together, place the reference numbers within a single set of brackets, for example, [2, 4–5]. References should be numbered sequentially in the order in which they first appear in the text, as [1], [2], [3], and so on.

----- Please read the following conditions carefully -----

Before Submission

Please review the following information before submitting your manuscript. **It is not necessary to include the text below in your paper.**

Please confirm the following terms.

☐ The review process of the International Journal of Intelligent Engineering and Systems (IJIES) consists of two stages: the first review and the second review. Each stage typically takes approximately two weeks. Accepted papers are generally published within approximately two months after acceptance.
- Please ensure that your initial submission is formatted in a two-column layout to clearly indicate the length of the manuscript.

☐ The paper length is more than 8 pages.
- If the page length does not exceed 10 pages, the APC will be USD 300.
- If the page length exceeds 10 pages, an extra page charge of USD 50 per additional page will be requested.
- An additional fee of USD 100 will be charged if authors do not use the prescribed formatting template, "IJIES_Format.docx".)

☐ All figures/tables/equations are original works.

☐ All figures/tables are clear. All text within figures and tables should be set in 10-point Times New Roman.

☐ The full name of all authors is given in your manuscript.

☐ Submission of a manuscript to the International Journal of Intelligent Engineering and Systems (IJIES) constitutes a declaration that the work has not been previously published or made publicly available in any form, including as a preprint, conference paper, institutional repository deposit, or other publicly accessible version. The manuscript must not be copyrighted elsewhere and must not be under consideration for publication by any other journal or publication. Manuscripts that have previously been posted as preprints or otherwise made publicly available are not eligible for submission to IJIES. The authors must also declare that they have no conflicts of interest or disclose any conflicts of interest, if applicable.

By submitting a manuscript to IJIES, the authors are deemed to have read, understood, and agreed to the above terms and conditions.

Information of IJIES Awards

Excellent Citation Award

The Excellent Citation Award of IJIES is granted to an individual or group who has made significant and important contributions to the International Journal of Intelligent Engineering and Systems (IJIES).

Nomination criteria:

More than 30 citation counts are necessary **within a year** after paper publication.

How to apply "Excellent Citation Award":

To proof your citation counts, please submit "Author search result" of "Scopus Preview" to IJIES office. (Check https://www.scopus.com/)

* The citation is counted by using "Scopus" database.

For Excellent Citation Award recipients:

Honorary certificate will be provided to an individual or group.

Outstanding Citation Award

The Outstanding Citation Award of IJIES is granted to an individual or group who has made significant and important contributions to the International Journal of Intelligent Engineering and Systems (IJIES).

Nomination criteria:

More than 50 citation counts are necessary within **three years** after paper publication.

How to apply "Outstanding Citation Award":

To proof your citation counts, please submit "Author search result" of "Scopus Preview" to IJIES office. (Check https://www.scopus.com/)

* The citation is counted by using "Scopus" database.

For Outstanding Citation Award recipients:

Honorary certificate will be provided to an individual or group.
